

# Residents Against Turbines

*the Carland Cross Wind Farm Action Group*

## Objection to ScottishPower's proposed development of Carland Cross Wind Farm

ScottishPower wants to treble the size of the Carland Cross Wind Farm and to double the height of its turbines. Please join us in objecting to this proposed industrial-scale development by adding your name and address to this petition and return it to:

*Steve Bazeley, Fairacre, Fiddlers Green, St Newlyn East, Newquay, Cornwall, TR8 5NJ*  
01872 540 348    [stevebazeley@r-a-t-s.org.uk](mailto:stevebazeley@r-a-t-s.org.uk)

Name	Address	Telephone	Email

## We need your support please

So far a small group of us has spent a lot of time researching the wind energy industry in preparation for making our objection and in setting-up our website as an important way of explaining our case. As ScottishPower's planning application proceeds, we will need more support in terms of your time and talents, and money for our fighting fund to pay for specialist advice and printing. Different people will be able to offer support in different ways, but everyone probably can find some way to help fight this development. Please indicate how you can help and make whatever contribution you can to the fighting fund.
